All about your flow. Everywhere.

Tapflo is a leading pump manufacturer with the ambition to provide a wide range of premium products for various industrial applications. Tapflo is represented by own companies and independent distributors in more than 60 countries spread over the world on 6 continents – products and spare parts are available worldwide. The headquarters are situated in Sweden.

About Tapflo

Tapflo Group is an independent, Swedish, family owned, manufacturer and global supplier of Air operated diaphragm pumps, centrifugal pumps and other industrial process equipment.

The company was founded as Temag Pumpar in Kungälv, Sweden in 1980 and has since then been working with design and manufacture of thermoplastic, metal and sanitary series diaphragm pumps and also with complete range of centrifugal pumps and industrial equipment. After years of dynamic development the company evolved into Tapflo Group with worldwide operations.

Quality certified

At Tapflo we believe that quality is one of the highest values, both for our customers as well as our employees. As a result, we comply with various globally recognised certification and quality control institutions. Many of our products comply with EC ATEX directives for equipment intended for use in explosion hazardous environments.

The aseptic series is EHEDG certified (European Hygienic Engineering & Design Group), the pharmaceutical series has USP VI approval.

All our products are obviously CE marked and followed by our comprehensive instruction manuals. Tapflo manufacturing process is certified according to ISO 9001:2001.

Quality manufacturer for all surface treatment needs

Filters

creating a safe process

Surface treatment process quality often relies on the bath filtration quality. As there are many hazardous substances used, it is of paramount importance to ensure these chemicals are handled in a safe way.

Tapflo is here to provide you with reliable solutions that increase both quality and safety of your surface treatment processes.

Available models

Filter with pump	
FTA-80	FTA-80/01-01

FTA Filter unit
 Standard FTA Filter is delivered with Tapflo Magdrive CTM series pump, that provides safe and leakage free operation. Depending on the unit size FTA filters are available with 1, 3 or 7 twenty inch (20") polypropylene filter cartridges available in standard porosities of 50, 20, 10 and 1 µm. FTA filters find big use in surface treatment, where is a need of liquids purification. Made in PP they have high resistance for Acids and Alkali.
